***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on May 24, 2004 is being considered by the examiner.

***Title***

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claim 1 and 19 are rejected under 35 U.S.C. 102(a) as being anticipated by Kobayashi et al. (U.S. Pat. No. 6,243,292).

Regarding claims 1 and method claim 19, Kobayashi al. disclose a semiconductor nonvolatile storage device and method of controlling as in figure 1 comprising: a writing operation selecting circuit for selecting a temporary writing operation having a prescribed writing time for a memory cell transistor element and an additional writing operation for the memory cell transistor element; and a writing time control circuit for controlling the time of the additional writing operation in accordance with the output signal of the writing operation

selecting circuit (figure 1, cpu writing and erasing control circuit 20 incorporated with distributor 140 controlling the operating and selecting various function in the memory device; col. 4, lines 28+).

*Allowable Subject Matter*

6. Claims 2-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach or fairly disclose, in addition to other element in the claim, claiming the semiconductor nonvolatile storage device having data written in the memory cell transistor element by the temporary writing operation is discriminated and the discriminated data is transferred to a write data holding circuit for the additional writing operation.

*Conclusion*
